CHAIRMAN'S LETTER

By: Robert N. (Bob) Hartnett, PLA, FASLA

The one constant during my tenure with the board is that good board members and staff come and go, and this year is shaping up to be no different. We are about to say goodbye to three outstanding individuals that have made Missouri a better place to live by their long and distinguished board service.

Current Architectural Division Chair, James C, "JC" Rearden, AIA, CSI, has announced his intent to retire from the Board no later of December 31 of this year, or sooner, if Governor Kehoe appoints his replacement. JC was appointed by Governor Jay Nixon in 2010 and served as an Architectural Division member and then as Division Chair since 2012.

Likewise, former Land Surveying Division Chair and division member Jerrod Hogan, PLS, too announced his retirement from board service effective October 31 due to a heavy load of both personal and work commitments. Jerrod was appointed by Governor Parson in 2018.

CHAIRMAN'S LETTER CONTINUED

As I was reminiscing about JC and Jerrod and their approach to board service, it's amazing how many traits they share, especially in their preparedness for the meeting, their approach to the issues, and their commitment to high ethical standards. The quarterly meeting board member informational packets probably average in the neighborhood at around 5,000 pages, and both JC and Jerrod could always be counted on for being prepared for the meeting and for knowing the intricacies of the Missouri statutes, and the ins and outs of the rules governing the four professions. Because the board's investigative licensee appearances as part of potential disciplinary actions and they are held behind closed doors, with the exception of a few individuals, people will never know just how prepared and how much of an advocate they were in working to protecting the public's health, safety and welfare. On a much more personal note, I'm going to miss both of their senses of humor and quick wit.

After 32 years of exemplary board service in two very different roles, Dr. Richard (Dick) Elgin, PhD, PE, PLS, will also be retiring from the board. He earned a Bachelor of Science in Civil Engineering and a Master of Science in Civil Engineering from the University of Missouri-Rolla (now Missouri S&T), and a PhD from the University of Arkansas. His professional career included time in academia, private practice and research. As the author of two books, including *The U.S. Public Land Survey System for Missouri and Riparian Boundaries for Arkansas*, Dick was widely recognized as the leading expert on everything related to Missouri surveying. Dr. Elgin contributed to aspiring professionals as an Assistant Professor, Professor, and later as Adjunct Professor Emeritus in the Department of Civil Engineering at Missouri S&T. Dick was appointed as a member of the Land Surveying Division of the board by Governor Mel Carnahan in 1993. When his time as a board member was over in 1997, the board contracted with Dick to serve as the board's exam consultant, a role that continues to this day. Dr. Elgin's contributions have been recognized by peers and institutions, including the Missouri Society of Professional Surveyors Robert E. Myers Service Award to the profession. Dr. Elgin joined us at the Springfield meeting where Dick received a Resolution from the board expressing our appreciation for his years of service.

If you happen to come across JC, Jerrod, or Dick, please make sure to thank them for their outstanding service to the citizens of Missouri.

As I mentioned in the last newsletter, the board is continuing to hold open houses with licensees in conjunction with the quarterly meetings in Springfield, Jefferson City, St. Louis, and Kansas City. Licensees in attendance heard the latest Board updates and had the chance to ask questions of board members and staff. We plan to continue our outreach effort, so check your email for more information regarding the November open house in Springfield, February in Jefferson City, May in St. Louis, and July in Kansas City.

We hope to see you at one of our future open houses. As always, please feel free to contact me through the Board office if I can be of any service to you.

If you haven't signed up for email notifications from the Board, please click or go to:
<https://public.govdelivery.com/accounts/MOIFP/subscriber/new>.

Retirement Congratulations to DR. RICHARD "DICK" ELGIN

On November 4, 2025, Board Chair Robert "Bob" Hartnett presented Dr. Dick Elgin with a Resolution recognizing his years of service to the Board.

Farewell & Best Wishes to JERROD LEE HOGAN, PLS

On November 4, 2025, Board Chair Robert "Bob" Hartnett presented Jerrod Hogan with a Resolution recognizing his years of service to the Board.

ARCHITECTURAL DIVISION LETTER

By: James C. (JC) Rearden, AIA, CSI, Division Chair

Knowing that this will be my final article for Dimensions, I want to share some of my experiences and reflections from more than 15 years of service on the Board.

When I first joined in 2010, the Board was managing 173 complaint cases across all four professions. At first glance, that seemed like a high number until I realized it represented less than 1% of the 21,944 active individual and corporate licenses in Missouri at that time. That discovery filled me with pride - it confirmed that I was working in an industry of dedicated individuals who approach their work with integrity and professionalism.

Equally inspiring was the Board's commitment to reduce the number of complaints. Over the years, we developed outreach programs to educate licensees and keep them up to date on the laws governing their practice. This very newsletter is one example of how the Board communicates current issues and policies. We also began hosting open houses at our quarterly meetings, creating opportunities for licensees and code officials to connect directly with the Board. Board members have continuously been encouraged to speak at workshops and conferences across Missouri. These efforts made a measurable difference: by 2024, there were only 88 complaints filed against 30,464 active individual and corporate licenses — less than 0.3%. This is a remarkable achievement and something for which every Missouri licensee should take great pride.

The Board's progress can also be tied to important updates to the laws that govern the practice of our professions. Since 2014, the definition of practice for each profession has been updated in Chapter 327 to meet the licensing needs of a modern practice. Some much needed terms were added such as Incidental Practice, Design Survey, Responsible Charge, and Technical Submissions.

Over the past 15 years, every chapter of the Board's rules has been revised—some more than once—to remain current. A few milestones stand out:

- **2018:** Updates to **Chapter 3 – Seals** to embrace the digital age, addressing the security needs for sharing information and clarifying when and how Technical Submissions should be sealed, as well as, who is authorized to make changes to sealed documents.
- **2020:** Revisions to **Chapter 2 – Professional Conduct**, enacted at a critical time when ethics scandals were drawing national attention across multiple professions.
- **2021:** A general revision to **Chapter 13 – Supervision**, clarifying the definition of Immediate Personal Supervision and outlining what constitutes the unlawful sealing of an unlicensed person's work. Additionally, we streamlined the process for replacing a licensee on a project to avoid the unnecessary duplication of work.

Of all the Board's strengths, one that has always impressed me is the dedication of our staff. Unlike some agencies where the default answer is "Ask your attorney," our staff consistently provides timely, practical

guidance—always with the goal of helping people do the right thing. Their professionalism has earned countless letters of appreciation, and deservedly so.

The same spirit of service is true of my fellow Board members. Without exception, they have demonstrated a continued commitment to protecting the public and supporting the design and construction community in that mission. Missouri's built environment is safer and healthier because of their work.

When I leave the Board, I will do so with full confidence that the future of the Board is in capable and caring hands. It has been an honor to serve alongside such dedicated individuals. I am grateful for the experience, and proud of all that we have accomplished together.

YOUR OPINION MATTERS

Your input is important!! Please take 1 minute out of your busy schedule to answer our short survey. Your responses will provide a roadmap for the Board to serve its licensees in the format(s) most desired.

<https://stateofmissouri.wufoo.com/forms/z1xo351b1tag8sf/>

Thank you in advance for your participation!

STAY IN THE KNOW – SUBSCRIBE TO GOVDELIVERY

Receiving e-mail notifications regarding meetings, legislation, laws, rules, discipline, relevant publications and events, or e-news from the Board could not be easier. Simply join our email subscription service, GovDelivery. Once signed up, you will be notified when the Board or its Divisions hold meetings and you will receive important information related to your profession and license. Receive as many or as few notifications as you like. You choose the lists to join.

Joining the subscribers list can be done in just a few easy steps.

- Visit the Board's website at pr.mo.gov/apelsla.
- Select the "Get APEPLSPLA News" link located in the lower right-hand corner; directly below the Sub Navigation menu. This will take you to the GovDelivery signup page.
- Enter the e-mail address at which you would like to receive notifications and then submit.
- Choose the list(s) you would like to join.
- A confirmation e-mail for each list you select will be sent to the e-mail address provided.

DISCLAIMER:

The articles in this newsletter are the work and opinion of the individual authors and do not necessarily reflect the official opinion or position of the Board.

PROFESSIONAL ENGINEERING DIVISION LETTER

By: Kevin C. Skibiski, PE, SE, PLS, Division Chair

2025 NCEES Annual Meeting in New Orleans

Your Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects (APEPLSPLA) is part of a larger organization of similar state boards, the National Council of Examiners for Engineering and Surveying (NCEES).

This year's NCEES Annual Meeting took place in New Orleans August 19-22, 2025. APEPLSPLA was well represented by me, Kevin Skibiski, PE, PLS; Amy Strauss, PE; Shane Terhune, PLS; Executive Director Rhonda Bullock; and Board Investigator Kim Hatfield. We individually attended forums for engineers, surveyors, member board administrators and Kim attended a law enforcement workshop with specific training and discussions on law enforcement activities across the country.

This year's meeting was attended by 254 delegates representing 67 different licensure boards. Twenty-nine percent (74) were first time attendees. This year there were no hotly contested positions or changes to NCEES Model Law and Rules, so the business meeting ran rather quickly and very smoothly with reports from all the NCEES staff and committee chairs.

Zone meetings were held where I concluded my one-year voluntary term as Central Zone Secretary. Networking with the others from the Central Zone is one of the most important reasons for attending NCEES meetings, as we find common issues and can informally discuss how we handle difficult cases and situations. Recently every state seems to be having issues with their state legislature's tweaking of licensure laws.

Financially NCEES is doing very well. The testing program is now all computer-based testing and many of the startup bugs have been worked out. They are still tweaking the land survey testing to develop a way to include state specific questions in a national computer-based test. Next year's budget indicates a projected revenue of \$41,394,189 along with projected expenses of \$39,763,537, that when combined with interest and investment income gives NCEES a projected net income of \$2,617,328.

One other item to share is a personal tidbit. My wife Jeanie joined me on this trip to New Orleans. The last time we were there was as a stop on our honeymoon drive along the coast of the Gulf of Mexico to Florida a short 47 years ago. This time we took our one free evening to eat at a small eclectic neighborhood restaurant named Joey K's in the Garden District and enjoyed Shrimp Etouffee and Jambalaya. It was another memorable evening in the Big Easy.

Kevin C. Skibiski, PE, PLS

Chair PE Division

PROFESSIONAL LAND SURVEYING DIVISION LETTER

By: Shane Terhune, PLS, Division Chair

It was brought to my attention recently that many Missouri Land Surveyors are not familiar with the organization National Council for Examiners of Engineering and Surveying NCEES, a national organization made up of 69 member boards from states across the United States and Territories. Once you become a Board Member in Surveying or Engineering in one of these states or territories you automatically become a member of NCEES.

As a Professional Land Surveyor, you are likely familiar with the fact that NCEES oversees the development, examination and grading for the FS and PS testing for licensure in most states. Missouri is one of the few states that has a State Specific Exam in addition to the NCEES Exams for licensure. These exams are quite a complex undertaking and are a full-time job for NCEES.

I was fortunate enough again this year to be selected as one of 15 persons to serve on the Committee on Examinations for Professional Surveyors. This Committee is responsible for completing charges as specified by the Board of Directors and to review Exam Development and performance and make recommendations for changes. This Committee also participates in the two-day FS & PS Exam Development process at the NCEES Headquarters reviewing existing exam items for relevance and drafting new exam items for subsequent review.

I had the opportunity in August to attend the 2025 NCEES Annual Meeting in New Orleans. Several items of interest that could at some point affect the Licensure of Professional Land Surveyors in Missouri were discussed and assigned to existing committees for development and implementation.

The PLSS PS Exam Committee is committed to the proposed PLSS PS Exam Module to be implemented into the NCEES PS Exam Library no sooner than October of 2027. This exam will replace the PLSS portion of the current NCEES PS Exam and will be offered to states that wish to require potential licensees to complete this exam in addition to the current NCEES PS Exam with any PLSS questions removed. This Exam will also be an extra cost to the potential licensee. State Member Boards of NCEES will be notified one year before implementation of the new module and will be offered a chance to review part of the operational question items before implementation.

Previously, our Board had considered whether the proposed PLSS Module could replace a portion of the Missouri Specific Exam Part 2. The proposed NCEES Exam is not inclusive of Tiffin's 1815 Instructions, and the 1871 instructions which will be of direct conflict to some of the PLSS regulations of the State of Missouri. PLSS States surveyed after 1855 will benefit from the later surveying instructions used for the proposed exam. Colonial States would still only require the PS Exam for licensure. The MO Land Survey Division continues to study this proposed development, along with the valuable insight of our long-time Exam Consultant, Dick Elgin.

Another committee of interest is the Surveying and Mapping Sciences License Task Force. This committee was formed after 10 NCEES member boards requested the development of a non-boundary PS exam, proposed to be named PS Geospatial. This exam, if accepted in member states, would license individuals performing surveying and mapping activities that do not involve boundary surveying. Several states already license Geodetic, Topographic, Photogrammetry, and Hydrographic Surveying, Construction staking, Drainage design, and Mapping.

One advantage to this proposed licensing that I can see is the ability of the Licensing Boards to monitor complaints of practice encroaching into Boundary surveying. The position adopted by the MO Land Survey Division when polled by NCEES was to approve the development of the Exam for member states and boards that wish to use it. However, currently Missouri has no desire to adopt this exam for licensure.

I hope everyone enjoys a great Fall and Holiday Season.

PROFESSIONAL LANDSCAPE ARCHITECTURAL DIVISION LETTER

By: Robert S. "Bob" Shotts, PLA, PLS, Division Chair

The 2025 CLARB Annual meeting took place in Lexington, Kentucky from September 18th through the 20th. The meeting this year dealt with the growing international efforts toward licensure. Representatives from Mexico, the Philippines, Kenya, Latvia and Australia were in attendance. The theme for this year's meeting was "Driving Policy Change and Global Recognition in Landscape Architecture". The Keynote Address was presented by Indra Purs from Latvia. She described the efforts within Latvia to achieve recognition and regulation of the profession of landscape architecture. Latvia has set the precedent for other countries seeking similar recognition. She also described the efforts to provide a model for other countries in Europe and how those efforts have provided a model for cross-border collaboration for the practice of landscape architecture.

There has been an ongoing effort to define the overlap and practice boundaries between the design professions. These efforts have been led by the Interdisciplinary Council on Regulatory Oversight (ICOR) for which CLARB and the other design professions have had extensive interactions for several years. The results of their work should be available at the end of the year.

During one of the sessions, representatives from around the world participated in a discussion about the status of the profession of landscape architecture in their jurisdictions. Three of the participants were present virtually (Australia, the Philippines and Kenya). Representatives from Mexico and Latvia attended the meeting. Considering the difference in time zones this was no small feat.

Many of the licensing jurisdictions represented by CLARB have seen an increase in foreign applicants seeking licensure in those jurisdictions. One of the difficulties associated with these applicants is in determining the equivalence of education obtained in those countries.

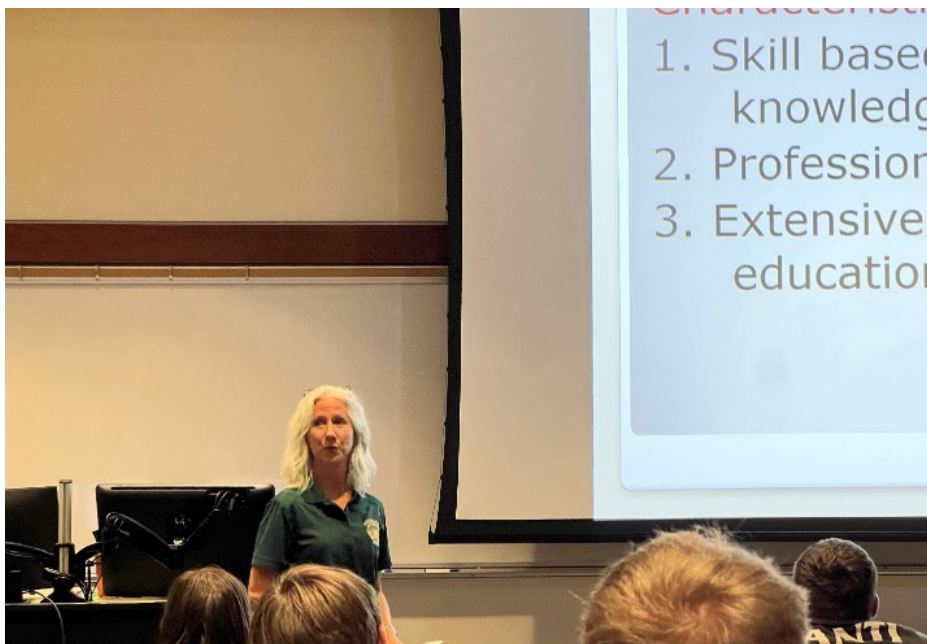

I would encourage all licensees to go to the ICOR website and see the results of their efforts.

OUTREACH SERVICES

On Tuesday, September 30, 2025, PE Division Member, Amy Strauss spoke to the freshman engineering class at Missouri State University, Springfield on *The Importance of Professional Licensure*.

On Thursday, September 11, 2025, Architectural Division Chair, JC Rearden made a presentation on behalf of the Board to the AIA/ICC entitled *The Status of Licensing in Missouri*. The presentation was held at the Saint Louis Masonry Institute.

The Board Members are available and willing to attend or speak at seminars, workshops, association meetings, universities, etc. upon request. If you would like for a Board Member to attend or speak at an upcoming function you are planning, please email your request to moapeplspla@pr.mo.gov.

IMPORTANT INFORMATION **REGARDING THE RENEWAL OF YOUR LICENSE**

If you were originally licensed in an **ODD** year, you are due to renew your license by December 31st of this year.

Based on renewal statistics collected over the past several years, it has been documented that over 90% of our licensees had renewed their license online. Therefore, the Board opted to send its renewal notices electronically to all licensees eligible for online renewal to their email address of record. The first notice was sent on October 1st. If you are due to renew but did not receive your renewal notice, please contact the Board office. Additional notices will be sent periodically as courtesy reminders until December 31st. A paper renewal will be sent to ALL individuals who have not yet renewed on December 1st.

If you have not already, please register for your new MOPRO account at: <http://mopro.mo.gov/license>. If you need help registering for your MOPRO account, click on the following link to watch a short video tutorial <https://www.youtube.com/embed/0AfO3SynotU> or contact the Board office at 573-751-0047.

By renewing online, you are provided with immediate confirmation that your license renewal has been received. It also allows you to pay your renewal fee with a major credit card and you can immediately download a copy of your renewed license. Both individuals and corporations can renew online.

Although we strongly encourage you to renew your license online, we realize not everyone has that capability. If you would like a paper renewal sent to you, please contact the Board office at 573-751-0047.

In closing, we kindly remind you of the following:

- Renewal notices are sent as a courtesy to all licensees.
- The renewal notice is sent to your email/mailling address of record on file at the Board office. If you move or change email addresses, it is your responsibility to notify the Board office of your new contact information promptly so that we can update your record.
- The Board cannot be responsible for misplaced or mishandled mail.
- Failure to receive a notice for renewal of a license or certificate of authority does not relieve the licensee or certificate holder from their duty to timely renew, nor does it relieve them from the obligation to pay any additional fee(s) necessitated by any late renewal.
- If the Managing Agent for a corporation or LLC is also due to renew by December 31, 2025, he/she must renew his/her individual license before the certificate of authority for the corporation or LLC can be renewed.

It is the licensee's responsibility to ensure that the renewal application is completed and submitted in a timely manner. The renewal period will end on December 31, 2025. A licensee who fails to renew his/her license by the renewal date shall not practice in Missouri. Licensees practicing in Missouri without a renewed license are subject to disciplinary action by the Board.

If you are not sure when your license expires, you can either call the Board office, visit the Board's Web site and click on "Licensee Search" via <https://mopro.mo.gov/license/s/license-search>, or look at the 5 x 7 license sent the last time you renewed-----it will display your expiration date.

NOTE: Section 324.010 – No Delinquent Taxes, Condition for Renewal of Certain Professional Licenses

All persons and business entities renewing a license with the Division of Professional Registration are required to have paid all state income taxes and also are required to have filed all necessary state income tax returns for the preceding three years. If you have failed to pay your taxes or have failed to file your tax returns, your license will be subject to immediate suspension within 90 days of being notified by the Missouri Department of Revenue of any delinquency or failure to file. If your license is suspended for state income tax, you must stop practicing immediately and you cannot return to practice until your license is active again. If you have any questions, you may contact the Department of Revenue at 573-751-7200.

IN MEMORIAM

ROBERT "BOB" VOLZ

August 12, 1933 - July 30, 2025

Robert (Bob) Volz, St. Louis, Missouri, passed away peacefully, surrounded by his loving family, on July 30, 2025. Bob was appointed to the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects by Governor Ashcroft as the third member of the newly formed Professional Land Surveying Division on February 19, 1987, and served until April 19, 1993. Bob was a very dedicated and conscientious professional land surveying member of the Board and held the life, safety, and welfare of the citizens of Missouri in high regard.

Bob proudly served in the United States Army during the Korean War. Upon returning home, he built a successful career as a civil engineer, contributing to the development of numerous commercial and residential projects throughout the region. He was admired for his dedication, precision, and integrity.

Bob will be deeply missed by the staff and members of the Board who worked with him during his tenure on the Board.

FAREWELL AND BEST WISHES

On behalf of the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects, we would like to sincerely thank Jerrod Hogan for his dedication to the Board and exceptional services rendered to the people of the State of Missouri while serving as a Professional Land Surveying Member from September 20, 2018, through October 31, 2025. The PLS Division elected Jerrod as the PLS Division Chair on January 27, 2020; Jerrod served as PLS Division Chair until January 31, 2022.

Jerrod was a very keen, quick-witted, and hardworking member of the Board. His dedication, expertise, and commitment left an incredible impact on the Board Members and Staff; Jerrod will be greatly missed by all.

It has been a great honor to work alongside Jerrod and learn from his work ethic, knowledge, and passion. He definitely left some big shoes to be filled and certainly made his mark as an outstanding Board Member! Thank you for your service, Jerrod!

OPEN HOUSE INVITATION

The Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects would like to invite all architects, professional engineers, professional land surveyors, and professional landscape architects to attend Open House.

Tuesday, February 3, 2026, at 8:00 a.m., in Jefferson City, Missouri

Tuesday, May 5, 2026, at 8:00 a.m., in Saint Louis, Missouri

Tuesday, July 28, 2026, at 8:00 a.m., in Kansas City, Missouri

Tuesday, November 10, 2026, at 8:00 a.m., in Springfield, Missouri

The purpose of the Open House forums is to discuss items of common interest relative to licensure, enforcement, and regulation of architecture, engineering, land surveying and landscape architecture in the State of Missouri as set forth in Chapter 327, RSMo. Each open house will begin with introductions, a question-and-answer session, and will end with a meet-and-greet of the Board Members.

Open House sessions qualify for one (1) CEU, PDH, or PDU

(Certificates will be handed out at the conclusion of each open house)

If you are interested in attending an open house session, please contact the Board office at

573-751-0047 or by email at moapeplspla@pr.mo.gov

Disciplinary Actions

DISCLAIMER: Every effort has been made to ensure that the following enforcement information is correct. However, this information should not be relied upon without verification from the Board office. It should be noted that the names of companies and individuals listed may be similar to the names of the parties who have not had enforcement actions taken against them. Discipline orders are public data and can be viewed at the following link, <https://pr.mo.gov/apelsla-disciplinaryactions.asp>. Pursuant to Chapter 327, RSMo, a licensee is entitled to engage in the practice of architecture, engineering, land surveying or landscape architecture during his/her probationary period providing that the licensee adheres to all of the terms and conditions of the Order. However, a licensee whose license has been suspended, is not entitled to engage in the practice of architecture, engineering, land surveying or landscape architecture during his/her suspension period.

LICENSEES CURRENTLY ON SUSPENSION

LARSON, CHRISTOPHER D., (PE-2011015769)

(Platte City, Missouri) – suspended pursuant to Section 324.010, RSMo, on January 8, 2021.

RODRIGUEZ, JOHN DAVID, (A-007118)

(Webster Groves, Missouri) – suspended pursuant to Section 324.010, RSMo, on January 8, 2021.

ROSEMAN, DANIEL, (PE-2006002848)

(Blue Springs, Missouri) – suspended pursuant to Sections 327.441.2(3), 327.441.2(6), and 327.441.2(8), commenced on November 27, 2023, and ends on November 26, 2026.

WALKER, ESTHER KWABEA, (PE-2001004690)

(Chicago, Illinois) – suspended pursuant to Section 324.010, RSMo, on July 22, 2018.

WHITE, TIMOTHY LEE, (PLS-002534)

(Cape Girardeau, Missouri) – suspended pursuant to Section 324.010, RSMo, on January 8, 2021.

WOFFORD, THEODORE JOHN, (A-001514)

(St. Louis, Missouri) – suspended pursuant to Section 324.010, RSMo, on January 8, 2021.

PROBATIONS

[BARRIOS, RICHARD \(PE-025259\)](#)

Prospect, Kentucky

Richard C. Barrios entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective October 31, 2025, by which Mr. Barrios agreed that his license as a Professional Engineer would be placed on probation for a term of one year with certain terms and conditions, probation ending on October 30, 2026.

On or about December 18, 2023, Barrios entered into a Consent Order and Settlement Agreement with the Maryland State Board for Professional Engineers, which took effect on January 10, 2024. In the Consent Order and Settlement Agreement, Barrios stipulated that he signed and sealed two (2) sets of engineering drawings for projects in Maryland in October 2022, which was after his Maryland license had expired on January 5, 2022, in

violation of Maryland law. Barrios was ordered to pay a civil penalty of six hundred dollar (\$600.00). On or about November 12, 2024, Barrios renewed his Missouri license as a professional engineer online and thereby attested that he had not been subject to any discipline not reported to the Board. This was not true as the Maryland discipline had not been reported to the Missouri Board.

Barrios signed a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects, acknowledging that his license was subject to discipline under Section 327.441.2(8), RSMo, [discipline in another jurisdiction], Section 327.441.2(3), RSMo, [use of fraud, deception, or misrepresentation in securing a license], and Section 327.441.2(6), RSMo, [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, Richard Barrios's Missouri license was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Barrios,%20Richard%20C.%20-%20PE-025259.pdf>

BECHT ENGINEERING CO. INC. (EGC-2005024547)

Liberty Corner, New Jersey

Becht Engineering Co. Inc., entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective September 25, 2025, by which Becht Engineering Co. Inc., agreed that their Certificate of Authority would be placed on probation for a term of one year with certain terms and conditions, probation ending on September 24, 2026.

On or about November 9, 2023, Becht Engineering Co., Inc. ("Becht") entered into a Settlement Agreement with the Ohio Board of Registration for Professional Engineers and Surveyors, which was accepted by that Board on November 28, 2023. In the Settlement Agreement, Becht acknowledged that it offered to provide and provided professional engineering services in Ohio without an active Certificate of Authorization, in violation of Ohio law. The Settlement Agreement imposed a fine of one thousand dollars (\$1,000.00) on Becht.

Becht renewed its Missouri Certificate of Authority as an engineering corporation online in December 2023 and thereby attested that it had been subject to discipline in other jurisdictions which had not been reported to the Board. This was false, as the Ohio discipline had not been reported to the Missouri Board.

On or about September 3, 2025, Becht signed a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects, acknowledging that its Certificate of Authority as an engineering corporation is subject to discipline under Section 327.441.2(8), RSMo, [discipline in another jurisdiction], and Section 327.441.2(3), RSMo, [use of fraud, deception, or misrepresentation in securing a Certificate of Authority] and Section 327.441.2(6), RSMo, [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Under the Settlement Agreement, Becht Engineering Co. Inc.'s Missouri Certificate of Authority as an engineering corporation was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Becht%20Engineering%20Co.%20Inc.%20-%20EGC-2005024547.pdf>

HUNSICKER, PAUL (A-003154)

Fenton, Missouri

The Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects issued the Findings of Fact, Conclusion of Law, and Order of Discipline by which Mr. Hunsicker was ordered to three years' probation with certain terms and conditions.

On September 9, 2025, the Board issued the Findings of Fact, Conclusion of Law, and Order of Discipline imposing three years' probation on Paul Hunsicker's license as an architect. The Board found that Hunsicker violated the terms of discipline previously imposed on September 21, 2023, in that he signed and sealed plans prepared by unlicensed persons. The Board found that his review of such plans did not meet the requirements of immediate personal supervision as defined in 20 CSR 2030-13.010.

Under the Findings of Fact, Conclusion of Law, and Order of Discipline, Paul Hunsicker's Missouri license was placed on a period of probation for three years.

To view the complete Settlement Agreement, please go to the Board's website at

JONES, GREGORY (PE-030246)

Centerville, Utah

Gregory T. Jones entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective October 31, 2025, by which Mr. Jones agreed that his license as a Professional Engineer would be placed on probation for a term of one year with certain terms and conditions, probation ending on October 30, 2026.

On October 8, 2025, Gregory T. Jones signed a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects, effective October 31, 2025. Jones stipulated that on March 18, 2025, he stamped and sealed fire alarm system and fire sprinkler drawings for a project in Town & Country, Missouri, through and on behalf of his corporation, Protection Consultants, Inc. ("PCI"), which did not have a Certificate of Authority to practice engineering in Missouri at the time the drawings were stamped and sealed. Additionally, the drawings did not incorporate a title block for PCI.

Jones stipulated that his Missouri professional engineering license was subject to discipline under Section 327.441.2(6) and (10), RSMo, for assisting and enabling PCI to violate Sections 327.401.2 and 327.191.1, RSMo, which prohibit the practice of professional engineering by a corporation in this state without a Missouri Certificate of Authority. Jones further stipulated that his license was subject to discipline under Section 327.441.2(6) and (10), RSMo, for assisting and enabling PCI to violate the Board's rule at 20 CSR 2030-2.050 which required a title block for PCI to be placed on the drawings.

Under the Settlement Agreement, Jones' Missouri license was placed on probation for a period of one year.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Jones,%20Gregory%20-%20PE-030246.pdf>

STUMBAUGH, JOHN (PE-023825)

House Springs, Missouri

John V. Stumbaugh entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective October 17, 2025, by which Mr. Stumbaugh agreed that his license as a Professional Engineer would be placed on probation for a term of three years with certain terms and conditions, probation ending on October 16, 2028.

Stumbaugh acknowledged that he sent drawings to an engineering firm that had hired him to perform engineering services for a swimming pool project in Texas with a signature and seal belonging to Eric Bjorklund. Mr. Bjorklund had no involvement with the pool project, did not design swimming pools and did not authorize Stumbaugh to place his stamp, seal and signature on the pool drawings.

Stumbaugh stipulated that his Missouri professional engineering license was subject to discipline under Section 327.441.2(6), RSMo [violation of laws and rules of Chapter 327, RSMo, specifically Sections 327.401.1, and 327.411.1-2, RSMo]; Section 327.441.2(5), RSMo, [misconduct, fraud, misrepresentation and/or dishonesty in the performance or duties of professional engineering]; and Section 327.441.2(13) [violation of professional trust and confidence].

Under the Settlement Agreement, John Stumbaugh's Missouri license was placed on a period of probation for three years.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Stumbaugh,%20John%20-%20PE-023825.pdf>

TAPPANA STRUCTURAL CONSULTANTS, PC., (EGC-2006036505)

Webb City, Missouri

Tappana Structural Consultants, PC., entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective August 28, 2025, by which Tappana Structural Consultants, PC., agreed that their Certificate of Authority would be placed on probation for a term of one year with certain terms and conditions, probation ending on August 27, 2026.

On or about July 29, 2024, Tappana Structural Consultants, PC., dba Tappana Ondrick Structural ("Tappana") entered into a Consent Agreement with the South Carolina State Board of Registration for Professional Engineers and Surveyors, which was accepted by that Board and became effective July 29, 2024. In the Consent Agreement, Tappana acknowledged that it offered to provide professional engineering services on one hundred two (102) projects in South Carolina prior to having a Certificate of Authority and collected \$284,273.00 in professional fees for said projects in violation of South Carolina law. The Consent Order imposed on Tappana a civil penalty of one thousand eight hundred and eighty-two dollars (\$1,882.00) and it was publicly reprimanded.

Tappana renewed its Missouri Certificate of Authority as an engineering corporation online in October 2024. By completing the renewal online, Tappana indicated that it had no discipline in other jurisdictions which had not been reported to the Board. This was false, as it failed to report the South Carolina discipline to the Missouri Board.

On or about August 11, 2025, Tappana signed a Settlement Agreement with the Missouri Board, acknowledging that its Certificate of Authority as an engineering corporation was subject to discipline under Section 327.441.2(8), RSMo, [discipline in another jurisdiction], and Section 327.441.2(6), RSMo, [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)]. Tappana's Certificate of Authority as an engineering corporation was placed on a period of probation for one year.

Under the Settlement Agreement, Tappana Structural Consultants, PC.'s Missouri Certificate of Authority as an engineering corporation was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Tappana%20Structural%20Consultants,%20PC%20-%20EGC-2006036505.pdf>

WILKINSON, HEWITT T. (PE-2009003628)

Louisville, Kentucky

Hewitt T. Wilkinson entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective April 26, 2025, by which Mr. Wilkinson agreed that his license as a Professional Engineer would be placed on probation for a term of one year with certain terms and conditions, probation ending on April 25, 2026.

Wilkinson signed a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects that took effect on April 27, 2025. Wilkinson stipulated that he stamped and sealed a draft, and a revised Geotechnical Report prepared for HighTower Solutions, Inc. with his Missouri professional engineer stamp and seal while his Missouri license was expired.

Wilkinson acknowledged that his license is subject to discipline under Section 327.441.2(6), RSMo, [violation of a Missouri statute, specifically stamping and sealing documents with an expired license], and Section 327.441.2(13), RSMo, [violation of professional trust and confidence]. Wilkinson's license was placed on a period of probation for one year.

Under the Settlement Agreement, Hewitt Wilkinson's Missouri license was placed on a period of probation for one year.

To view the complete Settlement Agreement, please go to the Board's website at

CIVIL PENALTY

MILLER, RICHARD TODD (PLS-2021004165 & PE-026947)

Lake Ozark, Missouri

On May 30, 2025, the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects issued the Findings of Fact, Conclusion of Law, and Order Imposing Civil Penalty by which Mr. Miller was ordered to pay a two thousand five hundred dollar (\$2500.00) civil penalty with certain terms and conditions.

After the February 21, 2025, default decision at the Administrative Hearing Commission granting the Board authority to discipline the professional land surveying license of Richard T. Miller, the Board held a hearing and imposed a two thousand five hundred dollar (\$2500.00) civil penalty. The allegations of the complaint related to Miller taking payment in May of 2022 to perform a survey but not performing the survey and not communicating with the clients involved. The complaint further alleged that Mr. Miller subsequently represented to the Board that he would complete the survey, but did not and did not refund the money involved.

On July 22, 2025, Mr. Miller paid the Civil Penalty of two thousand five hundred dollars (\$2,500.00), as ordered in the Findings of Fact, Conclusion of Law, and Order Imposing Civil Penalty.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Miller,%20Richard%20T.%20-%20PLS-2021004165%20&%20PE-026947.pdf>

CIVIL PENALTY AND PROBATION

MAGNUM GEO-SOLUTIONS, LLC., (EGC-2019007039)

Loveland, Colorado

Magnum Geo-Solutions, LLC., entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective October 14, 2025, by which Magnum Geo-Solutions, LLC., agreed to pay a two thousand dollar (\$2000.00) civil penalty and that their Certificate of Authority would be placed on probation for a term of three years' with certain terms and conditions, probation ending on October 13, 2028.

On or about May 9, 2016, Magnum Geo-Solutions ("Magnum") entered into a Consent Order with the Louisiana Professional Engineering and Land Surveying Board which was accepted by that Board on May 16, 2016. In the Consent Order, Magnum admitted that it provided and/or offered to provide engineering services on fourteen (14) projects and used the word "engineering" to describe its services in Louisiana from July 2010 through April 2016 without being licensed as a professional engineering firm in Louisiana in violation of Louisiana law. The Consent Order imposed a fine of two thousand and five hundred dollars (\$2,500.00) and administrative costs of six hundred sixty-nine dollars and ninety-eight cents (\$669.98) on Magnum. Magnum also agreed to immediately cease and desist the practicing of and/or offering to practice engineering and the use of the words "engineer", "engineering" or any modification or derivative thereof in referring to itself or in describing or promoting its business, services or activities in Louisiana until it was duly licensed.

Magnum applied for its Missouri Certificate of Authority as an engineering corporation on or about February 13, 2019, and attested that it had not been subject to any discipline which had not been reported to the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects. On November 1, 2023, Magnum renewed its Missouri Certificate of Authority online and thereby attested that it had not been the subject of any disciplinary in another jurisdiction not reported to the Missouri Board. The Louisiana discipline had not been reported to the Missouri Board.

On or about September 12, 2025, Magnum signed a Settlement Agreement with the Missouri Board, effective October 14, 2025, acknowledging that its Certificate of Authority as an engineering corporation is subject to discipline under Section 327.441.2(8), RSMo, [discipline in another jurisdiction], and Section 327.441.2(3), RSMo, [use of fraud, deception, or misrepresentation in securing a Certificate of Authority] and Section 327.441.2(6), RSMo, [violation of a rule, specifically the reporting requirement of 20 CSR 2030-11.010(3)].

Magnum's Certificate of Authority as an engineering corporation was placed on a period of probation for three years and a civil penalty of two thousand dollars (\$2,000) was imposed against it.

Under the Settlement Agreement, Magnum Geo-Solutions, LLC., Certificate of Authority was placed on probation for three years and Magnum Geo-Solutions, LLC., agreed to pay a civil penalty of two thousand dollars (\$2000.00) to the Cole County Treasurer.

The two-thousand-dollar (\$2000) civil penalty was received by the Board on October 29, 2025, and on the same day it was forwarded to Eric Peters, Cole County, Missouri Treasurer.

To view the complete Settlement Agreement, please go to the Board's website at

<https://pr.mo.gov/boards/apelsla/discipline/Magnum%20Geo-Solutions,%20LLC%20-%20EGC-2019007039.pdf>

TRUE NORTH ENGINEERING LLC., (EGC-2022044134)

Gardner, Kansas

True North Engineering LLC., entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective July 1, 2025, by which True North Engineering LLC., agreed to pay a two thousand dollar (\$2000.00) civil penalty and that their Certificate of Authority would be placed on probation for a term of one year with certain terms and conditions, probation ending on June 30, 2026.

True North Engineering, LLC., signed a Settlement Agreement with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects which took effect on July 1, 2025. True North Engineering, LLC., acknowledged that Eugene Robertson, a member and employee of True North Engineering, LLC., cut and pasted a screen shot of the professional engineering seal of Andrew Adams, True North Engineering, LLC., Managing Agent, onto a final engineering report for a True North Engineering, LLC., client. Mr. Adams never saw the report, nor did he give Mr. Robertson permission to put his stamp and seal on it. Mr. Robertson is not a licensed professional engineer in Missouri.

True North Engineering, LLC., also acknowledged it entered into a Consent Order with the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors, effective September 12, 2024. True North Engineering, LLC., acknowledged in the Consent Order that it had never held an Oklahoma Certificate of Authorization to offer and/or practice engineering in that state. True North Engineering, LLC., admitted guilt to violating the laws of Oklahoma by offering to practice and/or practicing engineering in that state without a Certificate of Authorization. True North Engineering, LLC., agreed to administrative penalties of eighteen hundred dollars (\$1,800.00) and to cease and desist from offering to practice and/or practicing engineering in Oklahoma until it has been issued a Certificate of Authorization to do so.

True North Engineering, LLC., agreed that its Certificate of Authority was subject to discipline under Section 327.441.2(6), RSMo, [violation of laws and rules of Chapter 327, RSMo, specifically Sections 327.401, and 327.411.1, RSMo,] and (13), RSMo, [violation of professional trust and confidence] for issuing a report that had not been signed and stamped by or with the authority or under the immediate personal supervision of a professional engineer; and Section 327.441.2(8), RSMo, [discipline in another jurisdiction].

Under the Settlement Agreement, True North Engineering, LLC., Certificate of Authority was placed on probation for one year and True North Engineering, LLC., agreed to pay a civil penalty of two thousand dollars (\$2,000.00) to the Cass County Treasurer. True North Engineering, LLC., paid the two thousand dollar (\$2,000.00) civil penalty as outlined in the Settlement Agreement.

To view the complete Settlement Agreement, please go to the Board's website at

LICENSE SURRENDER

OCHSE, MICHAEL S. (PE-020932)

Saint Louis, Missouri

Michael S. Ochse entered into a Settlement Agreement between the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects effective June 2, 2025, by which Mr. Ochse voluntarily surrendered his Missouri professional engineering license.

Ochse, a professional engineer, was employed part-time at Fire Tech, LLC, where he served as Managing Agent. Ochse was responsible for checking and sealing all drawings prepared by Fire Tech. Ochse received a bachelor's degree in mechanical engineering and then worked in the defense industry for 45 years where he did not use his professional engineer license. He also did small engineering projects through West County Industries, Inc., a company he owned. This company did not have a Certificate of Authority issued by the Board to practice engineering. In September 2023, Ochse stamped and sealed sprinkler drawings for a construction project in High Ridge, Missouri, on behalf of Fire Tech. Ochse also stamped and sealed architectural, structural and electrical drawings for the project that he did not prepare. He did not know nor did he ever meet the person who prepared the drawings. The two buildings depicted in the drawings each had individual living quarters for 16 occupants, but Ochse did not know how they were going to be used, what building codes applied, or whether they were ADA compliant, nor did he ever enter the buildings to confirm they were built in accordance with the drawings. The drawings themselves also were deficient in several aspects.

Ochse signed a Settlement Agreement and Affidavit of Voluntary Surrender on May 21, 2025 with the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects, acknowledging that his license was subject to discipline under Section 327.441.2(6), RSMo, [violation of laws and rules of Chapter 327, RSMo,] for practicing architecture without a license, in violation of Section 327.101, RSMo; for sealing architectural drawings which he was not qualified by education, training, and experience to seal, in violation of Section 327.411.2, RSMo, and 20 CSR 2030-2.010; for sealing engineering drawings that were not prepared under his immediate personal supervision, in violation of 20 CSR 2030-13.010(1)(4); and for sealing structural, electrical and fire suppression drawings which he was not qualified by education, training, and experience to seal, in violation of Section 327.411.2, RSMo, and 20 CSR 2030-2.010 and 20 CSR 2030-21.010.

Ochse also acknowledged his license was subject to discipline under Section 327.441.2(5), RSMo, [incompetency, misconduct, and/or gross negligence in the performance of the functions or duties of a professional engineer] by sealing architectural, structural, fire protection and electrical drawings without any knowledge of certain basic engineering principles and facts relevant to the drawings and project.

Ochse acknowledged his license was subject to discipline under Section 327.441.2(10), RSMo, [assisting or enabling the unauthorized practice of engineering] by serving as the managing agent of Fire Tech without being a full-time employee, in violation of Section 327.401.2, RSMo, and 20 CSR 2030-2.010(F) and 20 CSR 2030-10.010(2), and by owning and operating West County Industries, Inc. for engineering consulting without a Certificate of Authority, in violation of Section 327.401.2, RSMo.

Ochse further acknowledged his license was subject to discipline under Section 327.441.2(13), RSMo, [violation of professional trust owed to the public] by sealing architectural, structural, fire protection and electrical drawings with no comprehension of what should have been designed and, therefore, creating risk to the safety of the occupants.

Ochse voluntarily surrendered his Missouri professional engineering license which took effect on June 2, 2025.

To view the complete Settlement Agreement, please go to the Board's website at

MOPRO

is the new licensing system of the Missouri Division of Professional Registration!

MOPRO went live on January 14, 2025

MOPRO provides you access to your information 24/7/365, but not limited to:

- Applying for a license or renewing your license, whether on time or late!
- Changing managing agent of your Certificate of Authority!
- Changing your name, address, or other contact information!
- Uploading your supervision hours when audited!

To register with MOPRO, you need to have an active email on record with the Board. Log into <https://mopro.mo.gov/license/s/> to register for your MOPRO account today!

If you need help registering, email moapeplspla@pr.mo.gov

and include your license number and your issue!

Or call 573-751-0047 for help!

STATE OF MISSOURI

CEU/PDH/PDU CERTIFICATE

Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects

NAME OF SPONSOR

This is to certify that the person named below has earned .5 CEU for Architects and Professional Landscape Architects, .5 PDH for Professional Engineers, and .5 PDU for Professional Land Surveyors by thoroughly reading the Fall/Winter 2025 edition of the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects' newsletter entitled, Dimensions.

NAME OF PARTICIPANT

ATTESTATION: I attest, by the responses recorded below, my signature, and on my professional honor, that I have personally read and am familiar with the Fall/Winter 2025 edition of the Board's newsletter entitled, "Dimensions."

Please record your answers to the below questions, along with the page numbers on which you found the answers, in the blanks provided:

1. If you were originally licensed in an odd year, you are due to renew your license by what date? _____
2. The Board Members are available and willing to attend or speak at _____, workshops, association meetings, and _____ upon request. _____
3. In what city will the February 2-3, 2026, meeting be held? _____
4. Open House sessions qualify for _____ CEU, PDH, or PDU. _____
5. How many complaints were filed in 2024? _____

SIGNATURE OF LICENSEE

DATE

LICENSE NUMBER

NOTE: If you claim credit for reading the newsletter and are audited, you will be required to produce this completed certificate as documentation. Therefore, you are to print and keep a copy of this completed certificate in your file with your other supporting documentation. This credit does not count toward your HSW quota.
